

Versatile use Unique presentation

Schafer Solutions' Feminine Form Jewelry Display offers an eye-catching yet flexible means of presenting a wide variety of jewelry.

Beginning with a CNC-cut acrylic blank, the Feminine Form is gently shaped on tools designed to optimize your presentation needs. Details such as sheet color, finish and display size can be adjusted for more specific product requirements.

Screen printing, pad printing, or engraving can also be added to identify your brand, highlight a message, or provide product features. Edge-glow materials, LED lighting and other enhancements are easily incorporated; and the display can be direct-shipped to all specified locations – either unadorned for the addition of accessories upon arrival, or pre-adorned with your ready-to-sell jewelry. Accessory pedestals (like the style shown) are also available.

Choose Schafer Solutions' Feminine Form Jewelry Display for your next jewelry roll-out or promotion. Get striking visual appeal that complements the beauty of your unique items.

Employee owned Employee powered

Schafer Solutions is a member of the Owner Revolution Inc. (ORI) family of employee-owned companies. Like all ORI companies, our employee owners embrace the corporate-wide culture of **PRIDE: Positive Attitude, Respect for Each Other, Innovative Thinking, Dedication to Success and Enthusiasm for Excellence.**

With an experienced team of plastic solution providers powered by a strong Midwestern location and work - ethic, Schafer Solutions is perfectly positioned to deliver turn-key solutions for your plastic product needs... from idea to delivery.

Environmental consciousness

Schafer Solutions is committed to high standards of social responsibility, especially in terms of environmental stewardship. While assuring that our products meet your performance, functional and life-cycle requirements, Schafer Solutions works to do so with the smallest environmental footprint possible - with minimum waste, active recycling and the use of sustainable materials where environmentally friendly alternatives are economically available.
